TERM VALIDITY CIRCULAR

The institute has formulated the following guidelines for determining a uniform span period within which a candidate must qualify for the award of a degree:

1. A candidate is normally expected to complete the program within the minimum prescribed duration as specified by the Institute.
2. A candidate who, for any reason, is unable to complete the program within the prescribed minimum duration may be granted an additional period of two years beyond the normal duration to clear all backlogs and qualify for the degree.

The general formula shall therefore be as follows:

Time Span = N + 2 years,

where N represents the normal or minimum duration prescribed for completion of the program.

3. Ordinarily, no candidate shall be permitted to continue beyond the extended period of N + 2 years for the completion of the program. The guidelines given by the UGC and the SPPU will be followed in all such cases.
4. If a candidate fails to complete the program within the stipulated period plus the additional two years, it shall be mandatory for the candidate to take readmission to the respective class of the program and complete the program within the subsequent two years.

Dr. K. N. Nandurkar
DIRECTOR

K.K.Wagh Institute of Engineering
Education and Research
