Report on Industry Visit to Decimal Point Analytics, Nashik

Organized By: Department of Master of Computer Applications (MCA)

Date: 6th November 2024

Time: 10:30 AM

Introduction

The Department of MCA organized an enriching industry visit to Decimal Point Analytics, Nashik, on 6th November 2024. This visit aimed to bridge the gap between theoretical knowledge and practical industry exposure for First Year MCA students. The delegation included 4 faculty members:

- **Dr. V. C. Bagal**
- **Ms.M. E. Maniyar**
- **Ms.S. P. Kangune**
- **Ms.P. P. Patil**

A total of 90 students participated in this visit.

Objective of the Visit

The primary objectives of the visit were:

1. To provide students with an understanding of the functioning of a data analytics company.
2. To expose students to real-world applications of technology in data-driven decision-making.
3. To encourage students to interact with industry professionals and gain insights into career opportunities.

About Decimal Point Analytics

Decimal Point Analytics, headquartered in Nashik, is a leading player in the field of data analytics and research. The company specializes in financial analytics, AI-driven solutions, and providing customized business intelligence services to its global clientele.

Visit Highlights

The visit began with a warm welcome by the Decimal Point Analytics team. The agenda included:

1. Introduction to the Organization

- The session started with a presentation about the company's vision, mission, and services.
- The focus was on the role of data analytics in decision-making across industries.

2. Technology Insights

- Students were introduced to the tools and technologies used in data analytics, including Machine Learning, Python, and Power BI.
- The team shared case studies demonstrating real-world applications of data analytics.

3. Career Guidance

- Industry experts shared insights about career prospects in data analytics.
- Emphasis was placed on the skills and certifications essential for a successful career in this domain.

4. Interactive Session

- Students engaged in a Q&A session where they discussed the latest trends in data analytics and sought guidance on academic projects.

5. Facility Tour

- The students were taken on a tour of the facility to observe the working environment and infrastructure.

Outcomes of the Visit

- Students gained practical insights into the application of analytics in the financial sector.
- The interaction helped students understand the importance of teamwork, problem-solving, and innovation in a corporate setting.
- The visit motivated students to explore opportunities in emerging fields like AI and Big Data Analytics.

Feedback

The students and faculty members expressed their gratitude to the team at Decimal Point Analytics for their hospitality and knowledge-sharing sessions.

Conclusion

The industry visit to Decimal Point Analytics was a valuable learning experience for the students. It not only enhanced their understanding of analytics but also provided them with exposure to industry practices. Such visits are crucial in shaping students' careers by aligning their academic learning with real-world applications.
